A Special Report From Porn Star Sex Life

*Sara Liz*

*Goddess Shea*

Hi, this is Penthouse Pet and Playboy Playmate Sara Liz. and fetish model and adult entertainer Goddess Shea, we've have a question for you...

What does a woman want in bed?

She wants a man!

And a man is someone who can make her whole body shake from head to toes with pleasure.

He isn't afraid to get a little dangerous at times, pull our hair, slap our ass and totally shake us to our foundation – and trust me, us women love every second of it.

And he's also the guy who will occasionally get us to try things in bed that we never thought we would.

This is why women are excited to go home with and have lots of amazing, dirty sex with jack asses, players, and douche bags; but nice and decent guys like you. usually end up going home alone to your internet porn collection.

Nice guys are almost always a boring and unsatisfying let down during sex.

And even though we may be with you for a long time... And we know that we should be more attracted to you than we are, we are never going to be as open and adventurous in bed with you, as we are with douche bags.

When our options seem to be between you constantly disappointing us in the bedroom...

Or guys who give us over-whelming sexual pleasure, but will end up breaking our hearts – most women are going to opt for a broken heart.

It's a sad fact of nature, but it's something in our genes that dates all the way back to the days of cavemen. So it's not something that we can easily resist.

We get emails all the time from guys who are wondering what it is they are doing wrong.

Why so many women are sleeping with these asshole guys... And if there's anything they can do to be more sexually attractive, without having to resort to treating women like crap.

**Well, we've got some good news for you.**

You don't need to worry if you're going to be classified as either a jackass player, OR the guy who doesn't know what he's doing in bed...

Because there's a third kind of guy out there known as a **Sexual Pioneer** – and he completely blows away the competition.

You see, **Sexual Pioneers** are able to awaken sexual passion and desires in women, including ourselves, that we never knew existed until very moment they first touch us.

They are also able to effortlessly help us to embrace our every fantasy, and give us the kind of full-body pleasure that legends are made of.

**Sexual Pioneers** are also the guys who we call day and night when we are either looking for an amazing time in bed, or we want to try something really wild, such as bringing our girl friends over to join in.

They are known for being great guys, who are absolutely amazing in bed, and lead the kinds of sex lives that puts everyone else's to shame.

The problem, is that it's so rare to find a true **Sexual Pioneer**, that most women are forced to settle for those jackass Players instead.

\*\*\*\*\*

Hi guys, I'm Penthouse Pet, and Playboy Playmate Sara Liz, and Fetish model, and adult entertainer Goddess Shea; and in this free special report, we're not only going to show you *Why*, but we're also going to reveal to you *what* just some of the amazingly erotic and kinky sexual escapades some of the worlds top **Sexual Pioneers** get to experience on a daily basis are...

And more importantly, we're going to teach you how to become a **Sexual Pioneer**, so that you can live this kind amazing of sex life as well.

And no – You don't need to hire a professional, who's willing to do anything if you pay them enough. The partner you have now, or even your very next one is absolutely perfect.

You also don't need any of those gigantic sex swing like contraptions in your house, that are nothing more than a great way to scare the hell out of your friends and neighbors.

And you especially don't need any of those dangerous, and potentially fatal pharmaceutical drugs you find advertised in the backs of magazines.

But let's back up for a minute.

\*\*\*\*\*

Because right now, we are going to reveal to you the 3 **Critical Mistakes that Nice Guys Make In Bed – That Guarantee She Will Never Sleep With You Again.**

### **Critical Mistake Number 1:**

#### Talking Like A Therapist During Sex.

Most women know that when they have sex with a nice guy that he will most likely end up asking questions likes:

*“How does that feel?”*

*“Are you enjoying this?”*

*“Do you want me to go slower?”*

It’s boring. It’s lame. And most importantly, it’s a major turn off – and if you can find a way to turn a woman off WHILE she’s having sex with you, there is no chance she will have an orgasm, or more importantly.... She won’t EVER want to sleep with you ever again!

However, if you’re going to insist on talking to us during sex, you must know how, otherwise, please stay quiet.

For instance, most Nice Guys think that using dirty language, and cursing is a major turn off for women.

How ever, **Sexual Pioneers** know how to talk dirty so well, it can make the sex 10 times hotter, AND can even cause a girl to have an orgasm BEFORE the sex has even started!

When you can look a woman right in the eyes and tell her EXACTLY how you are going to ravish every inch of her body... And then DELIVER on that promise, then there are very few things in life that will turn her on more.

This means that if you tell a woman that you are going to pin her up against the wall, rip off all her clothes, kiss her body from head to toes and then throw her down on the bed and fuck her brains out.

**YOU BETTER BACK IT UP!**

So with that, let’s move on to **Critical Mistake Number 2:**

#### Nice Guys Treat Us Like We’re Faberge Eggs!

Does this scenario sound familiar to you at all?

You are in bed with a sexy young lady, and you want nothing more than for her to unleash the wild and crazy little inner-slut you just know that she has hiding inside of her? But you are too timid or embarrassed to let her know.

Or, you just have no clue how to really bring it out of her...

Listen, don't be afraid to get a little rough or even just let her know how good it feels when you fuck her.

Girls can be very shy about how they act in the bedroom, so if you want her to let her freaky side out, than you're going to need to give her a reason to really open up.

And that's one thing that **Sexual Pioneers** do extremely well.

They know exactly how to treat a girl in order to get her to really bring out her inner-freak.

And **Sexual Pioneers** don't just stop there. They are not only able to get women to get down and dirty in bed, but they actually make women excited about trying out each and every one of his wildest porn-inspired fantasies.

So do yourself a favor, if you want a girl to show you her inner freak, don't be afraid to help her bring it out.

This brings us to **Critical Mistake Number 3:**

### Nice Guys Don't Come Out of Their Comfort Zones.

This is one that happens A LOT, when a girl who's pretty wild in bed goes home with a nice guy.

She is more than willing to get a little bit crazy, but he's too scared to do anything.

Listen, if you really want to give a girl the best sex of her life, filled with orgasm induced screams loud enough to wake the neighbors, that feel so intense they make her whole body starts shaking uncontrollably; than you are going to need to relax, listen to what she wants, and come out of your comfort zone.

When you can do that, than more times than not, you're going to find things in bed that you will absolutely love, that you otherwise would never have tried.

And this is going to lead to many MANY more amazing sexual experiences for both of you.

Plus, when a woman sees that you're willing to come out of your comfort zone for her, she's going to be willing to do the same for you.

And then, you'll be able to experience things such as threesomes or anal sex on a very regular basis.

And just think about how much fun you'll be having then.

Here's the thing... Most people refuse to ever try anything new in bed, because they're afraid of it.

They're afraid of what they're partner will think.

They assume that they're partner will get scared off and leave them... When in reality, the exact opposite is usually true.

**But here's the really good news.**

Because so many people would rather suffer through a less than satisfying sex life, than try anything new – there's a huge opportunity you.

You see, the few **Sexual Pioneers** who are out there are absolutely getting to experience things well beyond their wildest imaginations.

But, if you are too scared to try anything new at all, then you will NEVER get to enjoy the kind of amazing sex life you really want.

And you're probably thinking that this sounds way too easy, and that there's got to be more to it than just that. So we want to make you a promise.

In this Special Report, we are going to introduce you to a number of regular guys who are just like you, but have all learned how to transform themselves in to **Sexual Pioneers**.

You're going to see step-by-step exactly what they did that got them the amazing results they get to enjoy every day of their lives.

And you're also going to learn the secrets of the worlds greatest **Sexual Pioneer**.

That's right, we are going to introduce you to the single biggest **Sexual Pioneer** on Earth, and completely pull the curtain back on how he became a sexual living legend.

When you learn these secrets, you'll understand just how easy it can be to use them and transform your sex life almost instantly.

And if you don't currently have someone to practice with, don't worry. Just pay close attention to this to what we're going to tell you in this special report, and you'll see that it's going to have the same results on the very next lucky lady who gets to spend time in your bed.

\*\*\*\*\*

So now we're going to talk about how you can give any woman incredible levels of sexual satisfaction.

And more specifically, how to give her an ear-to-ear smile any time she even thinks about you, because she knows just how amazing of a lover you are.

A woman who brags about you to her friends... And even lets her friends know, that if they want to have truly great sex, that you're the person they need to call.

Does that sound impossible?

I know it does... But it really does happen. And a lot more than you might realize.

First, let me ask you a question...

You're a human being – and humans are sexual creatures, right?

You want to have a more satisfying sex life so you can enjoy having sex more often...

Give yourself and your partner such intense orgasms that your whole body is shaking like an 8.5 quake as you wake the neighbors up on a nightly basis.

And get to live out all of your biggest fantasies – especially the ones you’ve been daydreaming about for years now.

And know that you are hands down the greatest lover your partner has ever had. And that anyone who has ever come before you can’t even be considered competition, since you are in a completely different league.

Right?

So let’s take a close look at the biggest **Sexual Pioneer** in the world. This is a man who is famous for sleeping with the most beautiful women alive, whenever he wants.

And, not only do women NOT get mad that he sleeps with tons of other women... But they expect it and encourage it.

You’re going to see exactly what he’s done to make himself such a living legend, and how you use his same exact techniques to start living the kind of sex life you really crave, right now.

Don’t believe us?

Well, we’re also going to introduce you to a handful of regular guys who are just like you, except with one little difference.

They too, have discovered exactly what they needed to know in order to become **Sexual Pioneers** as well.

When you see just how easy it was for these guys to have a sex life that makes all of their friends jealous beyond belief, and keep their partners more sexually satisfied than ever before; you’re going to wonder why it’s taken you all this time to discover these secrets.

I know you’re aware of this, but for what ever reason you’ve only stepped out of your sexual comfort zone a tiny bit... Or maybe you haven’t done it at all.

You may have thought, “Hey, this is a one night stand. I never have to see this person again, so sure I’ll give this a shot”.

Or, you’ve been waiting for the exact right moment to talk to your partner about trying some new stuff in bed.

Let me save you the trouble... Let’s look at the worlds top **Sexual Pioneer** – this is a man who has figured all of this out – big time!

Hugh Hefner is our generations most famous **Sexual Pioneer**.

In December, 1953 when he released the very first issue of Playboy, Hef changed the world of sex for good. What started out as not much more than a collection of naked photos, quickly became a lifestyle like no one else’s.

Hef is famous the world over for throwing some of the wildest, sexiest parties, and getting down and dirty with the most gorgeous women alive.

And, he's been doing this for over 60 years!

Let's take a closer look and figure out exactly what's going on behind the scenes, you that you can actually steal some of his techniques, and use them for yourself.

Hef has basically created a whole world dedicated to helping people comfortably come out of their comfort zones.

He is basically giving women permission to act on all their dirtiest sexual desires.

From the very minute you approach his house, you know that this is an environment that encourages you to try and experiment with everything you've always fantasized about.

That all of your desires are right within your reach, and the most important thing of all is that every experience is a great one, no matter how insane it might be.

And making sure that everyone has an amazing experience is the key to getting repeat business. Because if these women were willing to open up past their usual comfort zone in bed, and it came back to bite them in the ass (and not in that good way), not only would Hef's sex life have been over a long time ago, but also so would his business.

After discovering a few basic concepts, and spending no more than a couple of hours mastering them – you could be enjoying some of your wildest fantasies as well.

So ask yourself, if Hugh Hefner is was able to revolutionize sex simply by having a more relaxed set of boundaries for himself... And by knowing how to assist his partners in doing the same thing... wouldn't this same strategy work for you?

I know, I know... You're probably thinking that we're insane... I mean, Hef is a multi-millionaire, with a giant mansion and celebrities fighting for the chance to spend time with him...

But, I can tell you that it does not make the slightest bit of difference if you're old, overweight, short, bald, or have chronically bad breath and a tiny penis.

These strategies can be used universally, by any guy, and get you the same kind of amazing results you've always wanted.

But, what if you don't fantasize about sleeping with tons of women you barely know.

What if you're in a relationship with someone you love, and are only concerned about having a wildly satisfying sex life with only that one woman?

Well, I'm glad you asked...

We want to introduce you to just a couple of the regular guys who we've helped recently to transform themselves in to true **Sexual Pioneers**.

When you hear their stories, and see exactly what they did to start enjoying all of their fantasies when every they want, we're positive that it will inspire you, in your own sexual journey.

This is Alex:

He's a 24yr old recent college graduate, who moved back home with his parents after he finished school. Alex works part time at his uncles construction business putting up dry wall.

Because he's so exhausted after working hard all day, he's usually too tired to go out at night so meeting women has been tough for him.

And since he has to give almost his entire paycheck to his parents to help with the bills, he doesn't have the money to go out to bars and clubs, even if he did have the energy.

On top of that, Alex has a serious stuttering problem, AND his friends would rather stay home playing Xbox, then go out trying to meet women.

Alex recently started dating this girl he met online – Kristy, who's a junior in college, and active in her sorority.

But we'll come back to them in just a minute.

Charles is a 36yr old who works in the IT department of a small graphic design firm.

He's been dating Tanya for a few weeks now. In his entire life he's only had 4 sexual partners, where as Tanya admitted to us to having over 35.

Charles's last girlfriend left him for being too inexperienced in bed and actually failing to give her even a single orgasm in the 6 months they

were dating. Naturally this made him very scared that Tanya would do the same thing if he couldn't satisfy her.

Finally we have Robert.

Robert is a 58yr old soon to be retired carpenter, who's been with his wife Sheila for 29 years. Like most couples, the amount of sex they were having went down to next to nothing. Up until a few months ago, Robert and Sheila we're only intimate once or twice a month.

They had to plan their sex a few days in advance, and it always happened at night, right before they went to bed, with all the lights turned out.

Needless to say, the little sex they were having, was far from exciting.

So what do these three guys have in common?

Well, besides from having an unfortunately average sex lives, they all contacted us, and told us that they wanted to make some serious changes.

They wanted to become **Sexual Pioneers!**

Once we saw how upset they were about their current sex lives, and how serious they were about making the kinds of changes that would last for a lifetime, we agreed to help them.

Within just a few days of that conversation, all three guys were already seeing some serious changes.

Remember 24yr old Alex and his girlfriend Kristy? Well Alex convinced Kristy to bring over one of her sorority sister over for a threesome for his birthday.

They all had so much fun, that the threesomes are a pretty common activity for them.

Then there was our 36yr old IT Manager Charles, who was afraid that his lack of sexual experience would cause his new girlfriend Tanya to leave him.

Well, Tanya recently emailed us to let us know what she thinks of Charles's skills in the bedroom now.

*I can't thank you enough!*

*I don't know what you did, but Charles is a MUCH better lover than I could have imagined.*

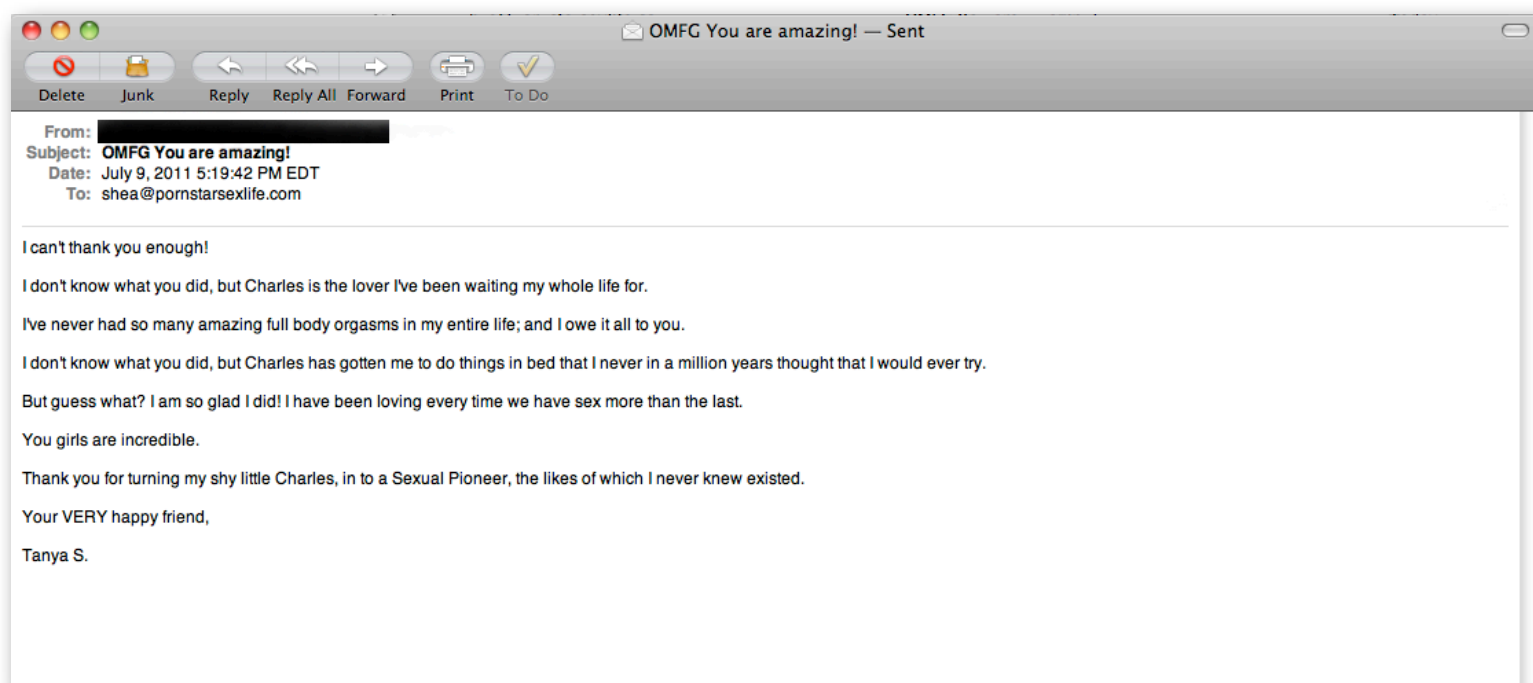

*I'm not sure how, but Charles has gotten me to do things in bed that I haven't done in years.*

*But guess what? I am so glad I did! I have every minute of it.*

*You girls are incredible.*

*Your VERY happy friend,*

*Tanya S.*

Finally, we had our 58yr old contractor friend Robert, who's sex life with his loving and devoted wife Sheila, has pretty much been in the toilet for the past few years.

Well, from what Robert told us, he and Sheila are not only having sex 1-2 times a day, but they've actually opened themselves up to several swingers communities near their home town.

### **How is that for some awesome changes?**

So now, let's talk about getting your partner to open up and become a dirty, kinky, wild little slut just for you.

But before we tell you how, we need to tell you why your sex life is absolutely cursed!

### **And here's even scarier news...**

**About 70% of women who have admitted to cheating on their partner, have admitted to doing it, because they're sex life was lousy.**

I don't know about you, but to me, 70% is WAY to high of a number for me to feel good about.

Allow me to recap – Today you have a choice...

You can continue to being frustrated because all the women you really want are sleeping with those jackass players and douche bags, simply because women think about nice guys like you as disappointing lovers.

And also run a real high risk that, the sex you're currently having will be the reason your partner cheats on and eventually leaves you.

Or you can decide that you are going to separate yourself from all this negativity, develop the skills it takes to turn your partner into your more than willing personal sex toy, and get to enjoy the kind of sex life you truly want, for the best of your life.

**But now here's the kicker...**

As you learn how to become a **Sexual Pioneer**, you will become very high in demand.

What do we mean by that?

Well, we've already discussed how Hugh Hefner is almost expected to sleep with any woman he chooses, without any others getting jealous... But don't you think the same rules apply to guys like George Clooney? Or how about rock stars and pro athletes?

Of course it does!

But just because they are the only examples of guys you might see right off the bat living this kind of life style, average guys just like you, are **Sexual Pioneers** as well.

It has nothing to do with how tall, handsome, well groomed, rich, or successful you are.

It doesn't matter if you have a small cock, drive a beat up piece of crap car, or still live at home with your parents.

We women tell our girlfriends every detail of our sexual escapades with a guy. And when one of our girlfriends hears about the mind blowingly amazing time we had. They want a turn for themselves.

It's incredibly common for a guy, who's just that damn good in bed to get calls from random women day and night, who is looking for some serious sexual satisfaction.

And what ends up happening in a lot of areas of the country is that women won't even bother giving a guy a shot in bed, unless he has an incredible reputation.

And now is time to take advantage of these huge gaps of sexual excitement.

By now, you've become familiar with the real reason women sleep with douche bags, and refuse to break up with them – no matter how lousy they are treated.

You've also discovered the amazing world of the **Sexual Pioneer**, and how regular people all over the country are living the kinds of sex lives that put everyone else's to shame.

You know the risks you run, if you don't step up your game in the bedroom and become a true **Sexual Pioneer**... and you've also seen just some of what awaits you when you do make that change.

Well, now it's finally time to get up, and start making those changes.

In [THIS VIDEO](#) we are going to break down for you step-by-step absolutely everything you need to know to actually become a **Sexual Pioneer**. Not just be familiar with what a **Sexual Pioneer** is – but actually start living that life style right away.

That's right! No more just talking about it. We will reveal to you the Who, What, When Where, Why and How – for absolutely everything you need to know.

[THIS VIDEO](#) is going to be a biggy, so do yourself a favor, and make sure to turn off your cell phone, quit your email program, close out of Facebook, and pay close attention.
